Keynote Speaker

Lauren Herckis, PhD

Bio: Lauren Herckis, PhD is an anthropologist at Carnegie Mellon University who specializes in faculty culture and the use of technology in higher education. Her field research applies anthropological and archaeological methods and theory to analyze human engagement with the material world. Under the aegis of Carnegie Mellon's Simon Initiative, Dr. Herckis' current projects explore the intersection of campus culture, technological change, and effective teaching at the college level. Her research informs policymaking, shapes the development of learning technologies, and illuminates aspects of organizational culture and policy which affect teaching practice.
